clinical consultation

Your Clinical Consultation is the most important part of the visit for each cosmetic treatment. Our approach is educational and focused on you, the client. Our goal is to empower you through proper education to feel confident in our skills and technology meeting your expectations. Your visit will include a personalized session with a Consultation Coordinator to evaluate your goals, review your skin and health history, and recommended treatment options. Our clinical providers will deliver a detailed skin evaluation and treatment recommendation. The Consultation Coordinator will then discuss the treatment process, including pre and post treatment instructions. Effective skincare regimens will be provided to meet your goals. During this process, please feel free to ask questions.

why choose us

First and foremost, we value loyalty, honesty, and integrity. Our providers have a genuine passion for helping others achieve their aesthetic goals. We place the utmost attention to detail in all areas of business from client satisfaction to treatments and product selection.

We pride ourselves on the relationships we build during the unique consultation process ensuring that the focus is kept on meeting your specific goals. This combination of clinical treatments and spa concierge service are the ultimate anti-aging experience. Indulge in Beauty, Blue Seas MedSpa.

Indulge in Beauty

our mission

Our mission is to be the premier choice for medical aesthetics and skin enrichment services. Our team is dedicated to treating every patron as our guest in a soothing and elegant environment. We raise the standard for Medical Spa excellence in Naperville.

meet us

Christopher Olson, MD and Christine Berardino Goluszka, Lic. Cosm. have joined forces in creating a cutting edge Medical Spa. With a staff of clinically trained beauty experts, we make it possible to have and maintain a more youthful appearance with the use of noninvasive procedures, skincare and makeup. Blue Seas MedSpa is a luxurious union of medicine and beauty.

our behind-the-scenes story

Dr. Olson, OB/GYN, and Christine, cosmetologist each have over twenty years of experience serving and educating their patients and clients. Over the years, both men and women have sought their advice when choosing preventative and corrective cosmetic treatments. After much thought and hard work, Dr. Olson and Christine decided to combine their professional experiences to create the spa atmosphere and clinical results you are seeking...Blue Seas MedSpa was formed.

With our deep understanding and appreciation for the aesthetic concerns at all ages, we chose service offerings based around the common conditions that both aging women and men experience. We carefully selected our technology based on their safety profiles with proven scientific results. We designed a consultation process around the client's goals and educational needs. We combined the alluring spa atmosphere and high-end concierge service with clinical expertise. We built a team of professionals to carry out our mission. We created the perfect clinical-based MedSpa in a relaxing, spa-like environment.

our commitment to you

We will educate on what's best for you, based on your health history, lifestyle needs and goals.
We will never upsell you on unnecessary services and product.
We will refer you to one of our qualified specialists when our services are not best suited to meet your needs.
We will deliver clinical procedures in a soothing, pleasing environment.
We will provide the most advanced, well-studied treatments and skincare while maintaining safety.
We will provide high physician involvement, oversight and approval.
We will stimulate all of your senses during your visits: Sight, Sound, Touch, Taste, Smell, and Intuition.
We will always reward you for your patronage.
We will build a long lasting relationship with you as we meet your skin care goals.
